Granite Properties' new Hilton hotel is going up soon on the Dallas North Tollway in West Plano.
(Granite Properties)

Developer Granite Properties has **already started construction** on its 12-story West Plano office tower.

And on March 28 the builder and investor will break ground for its 300-room Hilton Granite Park Hotel near the southeast corner of the Dallas North Tollway and State Highway 121.

Both the office tower and the full service hotel are the latest additions to the developer's Granite Park development which already has three office towers and retail space.

City of Plano officials and reps from Hilton Worldwide will join with Granite's top officers for the construction start of the hotel.
