

Meet Your Org Execs

*The Johnson Development Corp is sponsoring the Future of Fort Bend County on Aug. 28 (register [here](#)). Its experienced team is developing **mixed-use** commercial properties adjacent to its master-planned communities in Fort Bend. Click [here](#).*

Here's Jo D, right, after time traveling back, with Granite Properties' **Mary Butler Summy** and IREM 2011 national prez **Ronald Goss**. She started her career as a **magazine designer** and through her work on the *Houston Lawyer Magazine* she was hired at the Houston Bar Association (it must be catching) before making the leap to IREM. She says her members represent **15%** of Houston's market, which is her biggest challenge: That leaves a lot of real estate and asset managers who aren't connected to the org. And despite our first pic, she claims there's "nothing unusual about me... I am **completely normal.**"

Clearly there are a lot more orgs out there led by interesting execs. We're on it! More installments of this series are on their way.
